Cat Space 2 User Guide

An introductory volume

1) In order to fully appreciate this work, or perhaps to make its flaws less glaring, it is recommended to induce an "altered state of mind" before beginning the program. The mechanics of how that may be achieved are left as an exercise to the user.

2) Camera movement is achieved by clicking and dragging the mouse on the game area. The camera can move left and right, as well as up and down. Moving the camera left and right also serves to steer your catvatar across the map. The camera can be zoomed in or out by using the scroll wheel on your mouse if it comes equipped with one.

3) The cat will move forward if you press the 'W' key

4) The cat fears the letter 'S', so pressing this key will cause the cat to retreat.

5) Touch the two stars on the map to get content. You can touch one star, or the other star, or both stars in any order.

6) *ADVANCED TIP* - Continue walking past the edge of the play area to find a shortcut to level 2, space. Space is a cold and empty place, devoid of content stars or tunafish. Some say that if you continue for long enough, you may reach The Void Beyond...
